# GEFEG.FX – Tips and Tricks

The new version GEFEG.FX 7 has recently been released. With this interactive webinar we present new features and enhancements.

The webinar will focus on the new manager. GEFEG.FX version 7 supports project related work better, because all technical object types and their content related files are visible in a topic folder and can be opened from here. We present what should be taken into account when converting GEFEG.FX objects and present new features in the function areas Repository and Publishing Projects. At the end of the webinar we will answer your questions.

## Content

- The new GEFEG.FX Manager: structure and function
- The GEFEG Distribution
- What to bear in mind when converting your data
  - Linking of own data
  - The object check function for resolving conflicts
